

Level Design Document

GitHub - <https://github.com/JordanAherne/IntroToProgProject>

Game Concept

- FPS
- Post apocalyptic
- Robots have taken over the world
- You are part of the resistance
- You are infiltrating a robot production factory
- Your goal is to find and defeat the “core” robot

Level Purpose

- Exploration
- Collect Keycards
- Introduce new weapon and shield mechanic
- Escort payload
- Boss fight

Challenges

- Fighting robots
- Finding keycards
- Escort payload
- Boss fight

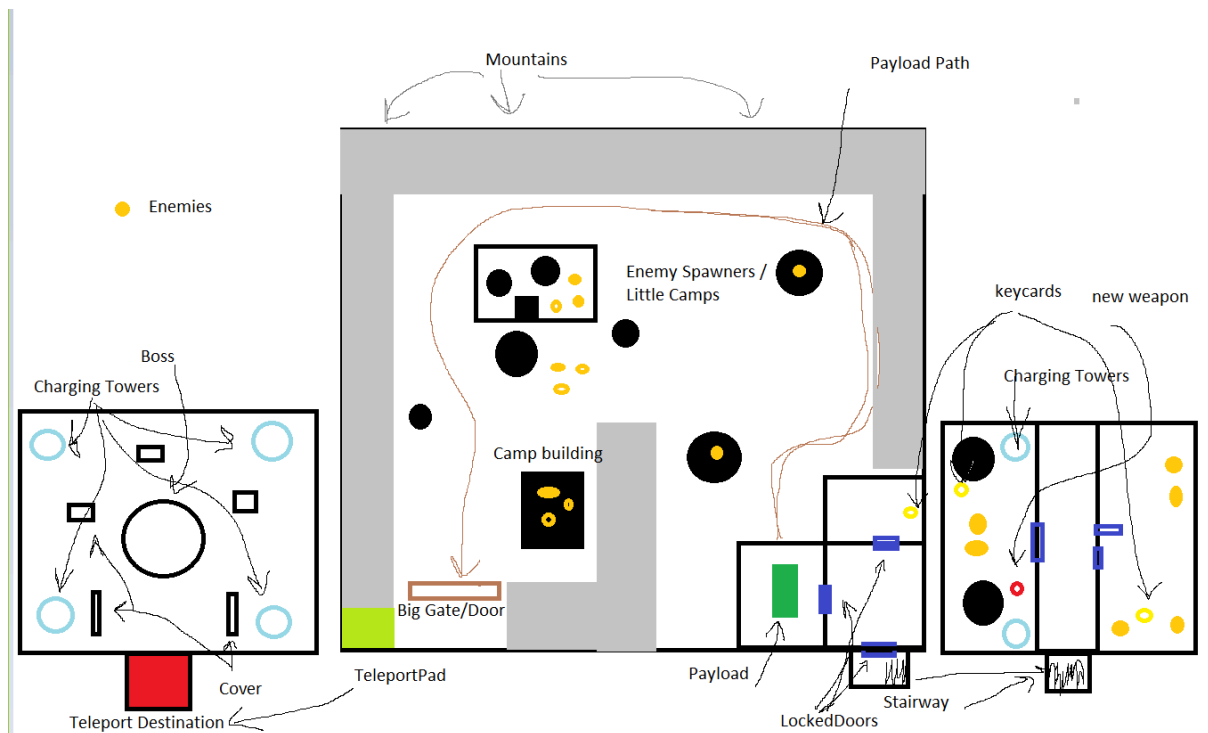

Elements

- Locked doors
- Projectile weapon
- Charging towers
- Shields
- Escort payload
- Objectives

Level Boxing

Components

Dual Wielding Robot

- Intention / Justification
 - Provide a moving enemy to make combat interesting
 - Makes the player more cautious
- Technical Spec
 - Two weapons
 - Alternates shots
 - Senses the player
 - Shoots at the player when they are in range
 - Chases the player

Shock Robot

- Intention / Justification
 - Faster enemy
 - Makes the player more cautious
 - Adds to the enemy diversity
- Technical Spec
 - Fast
 - Collides with player
 - Creates shock wave
 - Pauses to recharge

Payload

- Intention / Justification
 - Gives the player a task to do
 - Makes the player explore
 - Keeps the player to a general path
 - Forces the player to fight enemies
- Technical Spec
 - Moves when the player is beside it
 - Follows a predetermined path

Shock Grenade Launcher

- Intention / Justification
 - Adds to the players weapons
 - Different style weapon
 - Projectile bullet
 - For destroying shields
- Technical Spec
 - Projectile bullet
 - Removes shield component
 - Low ammo
 - Needs charge tower to increase ammo

Charge Tower

- Intention / Justification
 - Makes the player careful with the shock grenade launcher ammo
 - Makes the player slow down to charge
- Technical Spec
 - When in range add to grenade launcher ammo after a time

Shield Component

- Intention / Justification
 - Makes enemies more difficult
 - Encourages the player to swap weapons
 - Makes the player slow down
- Technical Spec
 - Reusable component for any actor
 - Immune to damage while shield is up
 - When hit with the grenade launcher projectile it is removed
